MARIPOSA LEADERSHIP, INC. HOSTS AUTHOR DONNA KARLIN TO DISCUSS MAKING LASTING IMPACT

Internationally-known leadership coach Donna Karlin to appear on Mariposa Leadership, Inc.'s Wise Talk Forum on September 21 at 3pm PT.

San Francisco, CA - September 2, 2011 - When times are tough, who better for top leaders to learn from than their peers? Narratives about leadership are some of the best learning tools, if the stories are told wisely and well. Sharing your own story in a dialogue format with a leadership coach can be another way to get perspective on how to increase your effectiveness and overall impact as a leader. The goal? How to not only get through trials and tribulations, but to do so in a way that creates lasting impact.

Join us at 3pm PT on Wednesday, September 21st for a lively discussion on the popular *Wise Talk Forum* as Mariposa Leadership, Inc. CEO, Sue Bethanis, interviews Donna Karlin, a speaker, lecturer, author and world-renowned leadership coach who is known for her Shadow Coaching™ of top global leaders in politics, government, corporations, non-profits, science and the arts.

Call in to join in as Bethanis and Karlin discuss how their clients face the following issues:

- Who do you have in your life to really listen to you, and help you think differently? Who can you call when you need help? Many leaders feel they have to figure things out on their own, but that can be a recipe for going nowhere.
- What impact are you making, right now, on the people around you? And what lasting impact do you hope to make in the world? Pausing to consider your impact can make it that much stronger.
- What can you teach to the next generation of leaders? Your impact on one future leader can affect thousands for years to come. What are young leaders looking for, and how can you help them get it?

Smart leaders know that even as they fight fires and struggle get through the day, their words, ideas and actions have an impact far beyond the immediate. Learning how others deal with the toughest leadership issues, and spreading that knowledge in turn, can have a multiplier effect on your influence.
